

JANUARY 2023

**GEORGIA NONPUBLIC
POSTSECONDARY EDUCATION COMMISSION**

GNPEC Annual Institutional Survey

We kindly request that a representative of your institution completes the brief annual [Customer Service Satisfaction Survey](#). GNPEC strives to improve processes and efficiencies, and your feedback is very valuable. We carefully consider all responses in our improvement efforts. The survey is open from **January 17, 2023 to January 31, 2023**. Please click here to take the survey: [Customer Service Satisfaction Survey](#).

Upcoming Commission Meeting

The next Commission Meeting will be held via teleconference on February 27, 2023 at 1pm. Please email info@gnpec.ga.gov for call-in instructions.

Additionally, please consider submitting a [School Spotlight form](#) for staff to potentially highlight at our next Commission Meeting if your organization, students, or graduates have received accolades or other recognitions. We would love to hear about the impactful ways our institutions are serving Georgia!

Reminders

Inactivity Policy

Inactive Programs

For unaccredited institutions, GNPEC has defined an inactive program to be an authorized program that has not had any enrolled student for at least two (2) years.

If the institution wishes to seek program approval in the future, a New Program Fee (please see the Schedule of Fees) and New Program Application will be required.

Accredited institutions should notify GNPEC if they have stopped offering any programs so that they may be inactivated in EDvera.

Inactive Authorized Institutions

GNPEC has defined an inactive institution to be any authorized institution that has not enrolled students in any approved program for at least two (2) years. This includes institutions with multiple programs that have had no enrollment in any program for at least two (2) years as well as single program institutions. Such institutions are no longer eligible for GNPEC Authorization. In this situation at the time of Renewal, the institution will be notified of the need to cease operations and surrender student records.

Please note that GNPEC is continuing to reduce flexibility regarding enrollment and inactivity due to Covid-related circumstances reinstating the above policies in place regarding inactivity.

Mandatory Evaluation of Modality Shifts

As of September 1, 2022, all institutions that were still offering programming online but had not been formally approved by GNPEC (approved for on-ground instruction but were temporarily permitted to offer programming online due to Covid-19), must have submitted all such programs for evaluation via a New Program Application(s) and [applicable fee\(s\)](#). Please contact your RS with any questions.

Policy 2: Hearing and Review

Revisions to Policy 2 were approved by commission vote at the November 28, 2022 Commission meeting. Please review the updated policy on the [GNPEC website](#).
